**General Program/Event Information**

**Program/Event Name:**

Outdoors Club climbing gear

**Description of Program/Event:**

Many students approach me with an interest in bouldering and climbing. An obstacle for many of them, however, is the personal gear needed to go. Having a supply of climbing shoes, harnesses, and helmets that students could use on outings would allow the Outdoors Club to reach a wider range of students by including those interested in climbing and bouldering. Alternatively, the club could continue to build up its supply of hiking and backpacking gear, which is another obstacle for students wanting to participate in outdoor events.

**Location of Program/Event:**

Irvine, CA

**Date of Program/Event:**

05/18/2014

**Start Time of Program/Event:**

08:00 am

**Expected Attendance**
Graduate Student Project Funds Application : Entry # 1172

Number of UCI Graduate Students Expected to Attend:

100

Number of UCI Undergraduate Students Expected to Attend:

0

Number of UCI Admin/Faculty/Staff Expected to Attend:

0

Number of Other People Expected to Attend:

0

How are you predicting the attendance numbers listed above?

Since this is not a one time event, but a resource to be used repeatedly over time, I expect that at least 5-10 students would use the equipment on a given outing, and if we have a few outings a year, this is the number of students who would benefit over the course of a few years.

Planned Methods of Advertisement:

The Outdoors Club currently advertises primarily through our Facebook page and word of mouth. We would now be able to communicate to potential participants that lack of personal gear does not have to be a deterrent to participation.
